Keeping in Touch - 12 April 2020

Hi everyone,

I trust everyone is coping o.k. I must say, aren't we lucky to be having such beautiful weather, and a lovely drop of rain yesterday as well. Most people must be getting lots of gardening done, the tip is over flowing with green waste, and the soil man on Denmark/ Mount Barker road can't keep up supply. Well done home gardeners.

Whilst on gardens, the Grevillea's are superb at the moment, Two in the garden at the moment are:

The first is, Winter Delight, grows 30cm's high, 1.2 meters spread.delightful Red-Pink & Cream flowers,

The second is Peaches & cream, 1.2mtrs high, 1.5mtrs spread. Soft yellow upper, peach coloured lower. The birds just love it.

What delights do you have in your garden that bring you so much joy?

For something a little different, Ian Hardwick sent this in. Write Your Life Story, a great way to pass the time, and also to let those to come, know your incredible life journey

GET WRITING

All of us has a personal history that few of us pass on to our children & grandchildren.

If you are looking for something to do write your life story. It will occupy many hours.

Start with your childhood memories, then your "tots to teen " experiences, your career path, travel, sport, raising your family etc.

You can also admit to things that have worried your conscience all your life. (If you have murdered someone you may write it as an addendum & attach it to your will)

Get everything off your chest. You might just create a best seller !!

Regards, Ian Hardwick.
